

# WHO Drug Information

## Contents

<b>General Policy Topics</b>		Information to patients on medicines	15
Drug control in small countries	1	Predictive value of animal studies in toxicology	16
<b>Points of View</b>		Industry's view on restricted drug lists	16
The essential drug concept	3	Comments on the essential drug concept: an industry viewpoint	17
<b>Reports on Individual Drugs</b>		Several hundred thousand children go blind each year due to vitamin A deficiency	17
Oral contraceptives and cancer	5	Aztreonam: an alternative to aminoglycosides	17
Auranofin licensed in the UK	7	Guidelines for the manufacture of bulk drugs	18
Efficacy of <i>Salmonella typhi</i> (Vi) capsular polysaccharide vaccine in Nepal	7	Antidotes: preparation of international guidelines	18
Efficacy of thrombolysis with streptokinase after myocardial infarction	8	More attention to over-the-counter drugs	18
Ciclosporin	8	Increase in licence fees in the United Kingdom	19
Glibenclamide	8	Recombinant organisms: no special environmental risks	19
Human insulin	9	China: upgrading of drug production and licensing of drug imports	19
Loperamide	9		
Nitrate tolerance reversed by acetylcysteine?	9	<b>Regulatory Matters</b>	
Nonsteroidal anti-inflammatory drugs	10	Acetylsalicylic acid	20
Oral rehydration salts	10	Acipimox	20
Phenytoin	10	Alkylpoly(oxyethylene) sulfates	20
Retinoids — oral therapy	10	Amantadine	20
Warfarin: interaction with imidazoles	11	Antihistamines	20
<b>General Information</b>		Anti-inflammatory proteolytic enzymes	21
Schools of pharmacy in Central America	12	Bupivacaine-containing anaesthetics	21
Rubella immunization strategy	12	Butalbital (combination product)	21
Combined vaccination against measles, mumps and rubella in Sweden	12	Calcitonin	21
Rubella vaccination during pregnancy	13	Ceftriaxone	21
New screening strategy for identifying potential anticancer drugs	13	Cell therapy	21
Fourth International Conference on Pharmacoepidemiology	14	Cimetidine	22
New developments in hormonal contraception	14	Clometacin	22
Animal models for testing drugs against dracunculiasis	15	Cyclophosphamide	22
Changing needles but not syringes: an unsafe practice	15	Cyproterone acetate	22
Limitations of antiviral therapy in chronic hepatitis B	15	Dantrolene	22
		Dantron	22
		Dihydroergotamine mesilate + heparin sodium + lidocaine hydrochloride	22
		Flunitrazepam	23

**Contents** (continued)

Fluvoxamine	23	<b>Essential drugs</b>	
Glyceryl trinitrate	23	WHO Model List: Fifth Revision	31
Herbal products	23	<b>Advisory Notices</b>	
Ibuprofen	24	Beta-adrenoreceptor blocking agents	42
Interferon alfa-2a	24	Bromocriptine	42
Interleukin-2	25	Brotizolam	42
Ipratropium bromide	25	Buprenorphine	42
Metoclopramide	25	Camphor	42
Mucopolysaccharide polysulfuric acid esters	25	Cefaclor	43
Nabilone	25	Ciprofloxacin	43
Oral contraceptives: revised patient package insert	25	Chlorofluorocarbon propellants	43
Oral contraceptives	26	Chorionic gonadotrophin: risk of adverse effects	43
Phenylpropanolamine	26	Clomethiazole	44
Piroxicam	26	Contact lenses: eye infection	44
Rifampicin	27	Corticosteroids in the eye	44
Saccharin	27	Etodolac	44
Sympathomimetic agents	27	Fenfuramine	45
Syringes and needles for parenteral injection: restricted use	27	Hepatitis-B (re)vaccination: guidelines for selection of patients	45
Ticlopidine	27	Human dura mater graft: transmission of pathogenic viruses	45
Triazolam	28	Mesalazine	45
Trimethoprim/sulfonamide combinations	28	Misoprostol	45
Vincamine in herbal medicines	28	Nonsteroidal anti-inflammatory drugs	46
Vitamins	28	Oral contraceptives	46
<b>VETERINARY DRUGS</b>		Paraformaldehyde	46
Detomidine	28	Prescription of pharmaceuticals for serious chronic diseases	46
Lasalocid sodium	29	Progestogens	47
Luprostiol	29	Propofol	47
Monensin	29	Slimming products	47
Tiamulin	29	Sulfamethoxazole + trimethoprim (co-trimoxazole)	47
Dispensing of veterinary products in pharmacies	29	Sulfasalazine	47
Generic substances used in animal feeds	29	Theophylline (sustained-release preparations)	48
Withdrawal periods for medicated animal feeds	30	Trazodone	48
Oil-based veterinary vaccines	30	<b>Pharmaceutical Products Approved</b>	49
