

WHO Drug Information

Contents

General Policy Topics		Potassium chloride voluntary withdrawal	67
Guiding principles for small national drug regulatory authorities	43	Slimming aids	67
		Tamoxifen	67
Personal Perspectives		Veterinary Drugs	
Address to Ninth General Assembly of the World Federation of Proprietary Medicines Manufacturers	51	Amoxicillin	67
		Carcinogenicity and veterinary drugs	68
		Chloramphenicol	68
Reports on Individual Drugs		Advisory Notices	
Oral contraceptives and breast cancer	53	Allergenic extracts: risk of anaphylaxis	69
Efficacy of hepatitis B vaccine	54	Dapsone: severe cutaneous reactions	69
Aerosolized pentamidine in <i>Pneumocystis carinii</i> pneumonia	55	Floctafenine	69
Antihaemophilic factor and AIDS	56	Injectable vitamin preparations: serious allergic reactions	69
Fenoterol and fatal asthma	57	Lofepamine: severe hepatic reactions	70
Ciclosporin enemas in refractory chronic proctitis	58	Low osmolar radiocontrast media and shock	70
		Lysine acetylsalicylate injectables and shock	70
		Mianserin: blood dyscrasias	70
		Nefopam: risk of urinary retention	70
General Information		Parenteral nutrition: need for thiamine-containing vitamin supplements	71
Proposed revision of Australian therapeutic goods legislation	59	Propofol: convulsions, anaphylaxis and delayed recovery from anaesthesia	71
Epidemiologists at odds	59	Sulfonylureas and hypoglycaemia	71
Analgesics and renal disease	59	Suxemethonium chloride: severe bradycardia	71
Resistance to antivirals	61	Tetracyclines: benign intracranial hypertension	72
High blood pressure in the elderly	62		
Volatile anaesthetics and the ozone layer	63	Essential Drugs	
Disclosure of inactive ingredients	63	Intestinal infections due to nematodes	
Registration of drug products in Malaysia	63	Ascariasis	73
Is multiple sclerosis an immune disease?	64	Hookworm	74
Measles virus vaccines: defective interfering particles	65	Strongyloidiasis	74
Measles/mumps/rubella vaccine: cost benefit	65	Enterobiasis	75
Salt-induced enhancement of measles virus yield in cultured cells	65	Trichuriasis	75
		Trichostrongyliasis	75
Regulatory Matters		Capillariasis	76
Drugs for Human Use		Albendazole	76
Erratum: pyrrolizidine alkaloids	66	Levamisole	77
Encainide and flecainide for life-threatening dysrhythmias only	66	Mebendazole	77
Fenbufen	66		
Imipenem/cilastatin	67
