a reappraisal 10

Acetylsalicylic acid and eclampsia 11

Dangers of antidiarrhoeal drugs 12

Melarsoprol encephalopathy: the
preventive effect of corticosteroids 12

Mortality trends among users of oral
contraceptives 13

Management of ulcers induced by NSAIDs:
costs and benefits 14

Chloroquine: resistance reported in
Plasmodium vivax 15

Chemotherapy and secondary leukaemia 15

General Information

Control of active ingredients: a fresh
look at an old problem 17

Drug ingredients: the need for disclosure 17

Costs of antihypertensive therapy 18

Drug degradation in the tropics 18

Formularies revisited 19

Drug utilization research: where are
the tools? 19

Lung cancer: setbacks in chemotherapy 20

Advertising standards: does self-
regulation work? 20

Therapeutic assessment by medical audit 21

Prophylactic antibiotics and caesarian
section 22

Regulatory Matters

ACE-inhibitors: contraindicated in pregnancy 23

AIDS drugs: update 23

Clozapine for schizophrenia 23

Fenoterol: prescribing restrictions for
asthmatic patients 24

Flecainide: restricted indications 24

Fluconazole: approved for AIDS-related
fungal infections 25

Fludarabine in chronic lymphocytic leukaemia 25

Germanium poisoning from dietary
supplements 25

Labelling of pharmaceutical products 25

Molsidomine: more concerns regarding
carcinogenicity 26

Metoclopramide and neuroleptic
malignant syndrome 26

Oral typhoid vaccine approved 26

Promethazine: sudden infant death syndrome 26

Trimethoprim-sulfamethoxazole: risks in
the elderly 26

L-tryptophan and eosinophilia-myalgia
syndrome: update 27

Zidovudine: extension of indications 27

Advisory Notices

Cefalosporins and pseudomembranous
colitis 28

Doxycycline and oesophageal injury 28

Fumaric acid derivatives and nephrotoxicity 28

Glafenine and floctafenine: sensitivity
reactions 28

Influenza: recommended vaccine 28

Metoclopramide: dangers of overdosage 29

Natural medicines: renewed call for caution 29

Nikethamide: voluntary withdrawal 29

Oral contraceptives: relaxation of
recommended age limit 29

Essential Drugs

Tuberculosis: a persistent but
treatable disease 30
