

WHO Drug Information

Contents

General Policy Topics

The resurgence of tuberculosis:
a call for commitment

39

Personal Perspectives

International biological standardization

41

Reports on Individual Drugs

Human growth hormone and
Creutzfeldt-Jacob disease

43

Steroids in tuberculous meningitis:
beneficial or harmful?

44

Hepatitis B vaccine: protection against
chronic viral carriage

44

Combined oral contraceptives and
liver cancer

46

Antiepileptic drugs: when should
treatment be withdrawn?

46

Epilepsy in a primary care setting

47

Amocarzine: an oral macrofilaricide at last?

48

New approaches to the treatment of
tick-borne borreliosis

49

Rice-based oral electrolyte solutions
for diarrhoea

50

General Information

Early treatment of HIV infection:
community consequences

52

Transmission of multidrug-resistant
tuberculosis

52

Antimicrobial resistance patterns in
childhood pneumonia

53

Determination of dosage in population-
based chemotherapy

55

Clinical trials: randomization revisited

55

Cancers following organ transplantation

56

Influenza vaccination: reassurance for
the elderly

57

Contraceptive use and bacteriuria

57

Regulatory Matters

Bovine spongiform encephalopathy

59

Drug effects in the elderly

61

Filgrastim (granulocyte colony-stimulating
factor)

61

Prothrombin complex concentrate:
suspension

62

Succimer: a new antidote for lead poisoning

62

Nonprescription drug review gains momentum

62

Dietary aids: proposed ban on 111 ingredients

62

Blood and blood products: prevention of
HIV transmission

63

Regulations controlling thalidomide

64

Advisory Notices

Minocycline: a cause of benign intracranial
hypertension?

65

Bromocriptine and pleuropulmonary disorders

65

Non-sedating antihistamines: CNS effects
reported

65

Essential Drugs

Fungal infections of the skin and
mucous membranes

67

Amphotericin B

70

Benzoic acid and salicylic acid

71

Fluconazole

72

Flucytosine

73

Griseofulvin

73

Ketoconazole

75

Methylrosalinium chloride (gentian violet)

76

Miconazole

76

Nystatin

77

Potassium iodide

77

Selenium sulfide

78

Recent publications

An introduction to pharmaceutical production

79

Animal toxicity studies and their relevance
for man

79

Proposed International

Nonproprietary Names: List 65
