## THE SUSCEPTIBILITY OF GREEK MALARIA VECTORS TO DDT

Laboratory Tests

by

G. LIVADAS and K. THYMAKIS

## C o r r i g e n d u m

- Page 4, 4th paragraph, 2nd line: After "wire-mesh" insert "cylindrical";  
After "cages" insert 0.20 m high and 0.08 m  
in diameter".
- Page 5, last paragraph, 2nd line: After "exposed" delete the rest of the  
line and replace by "for one hour to a  
2% DDT solution, and kept for 24 hours  
in"
- Page 6, 1st paragraph, 1st line: After "mortality" insert "after 24 hours";  
same paragraph, 2nd line: After "exposure, insert "for one hour".

(All the above amendments have been submitted by Professor Livadas)
