

SELECT BIBLIOGRAPHY

SELECT BIBLIOGRAPHY ON YELLOW FEVER VACCINATION *

This bibliography has been prepared from the reference sources available in the Library of the World Health Organization. Medical indexes and abstracting journals, and the bibliographies of many articles and books, were systematically scanned; the final selection and classification were undertaken by Dr P. H. Bonnel.

I. GENERAL

1. ADVIER, M.
L'épreuve de Max Theiler (séro-protection de la souris blanche contre le virus amaril neurotrope) pourrait-elle être remplacée par une intradermoréaction? *Bull. Soc. Path. exot.* 1935, **27**, 576-578
2. ANDERSON, C. R. & GAST-GALVIS, A.
Immunity to yellow fever five years after vaccination. *Amer. J. Hyg.* 1947, **45**, 302-304
3. ANDERSON, C. R. & GAST-GALVIS, A.
Inmunidad para fiebre amarilla cinco años después de la vacunación. *Rev. Fac. Med. Bogotá*, 1947, **16**, 899-902
4. ASSUMPTÃO, L. de
Prova de proteção intraperitoneal em camondongo no estudo epidemiológico da febre amarela silvestre (epidemia ocorrida no Estado de S. Paulo, Brasil em 1937-1938). *Rev. Ass. paulista Med.* 1939, **15**, 387-409
5. ASSUMPTÃO, L. de
Provas de imunização e neutralização cruzadas entre o vírus neurotrópico da febre amarela clássica e o vírus isolado de doentes de febre amarela silvestre na epidemia de 1936-1937, no E. S. Paulo. *Arch. Hig. Saúde públ.* 1943, **8**, 91-108
6. ASSUMPTÃO, L. de
Relações imunitárias entre febre amarela e outras infecções clinicamente parecidas que se observam nos climas tropicais e sub-tropicais. *Arch. Hig. Saúde públ.* 1944, **9**, 17-32
7. BABLET, J.
La prémunition de la fièvre jaune: réalisations et promesses? *Rev. Hyg. Police sanit.* 1937, **59**, 321-328
8. BABLET, J.
La fièvre jaune a-t-elle livré tous ses secrets? *Biol. méd.* 1949, **38**, 181-229
9. BAUER, J. H.
The duration of passive immunity in yellow fever. *Amer. J. trop. Med.* 1931, **11**, 451-457
10. BAUER, J. H. & HUDSON, N. P.
The duration of immunity in human yellow fever as shown by the protective power of the serum. *J. prev. Med. (Baltimore)*, 1930, **4**, 177-178

* Health departments and research institutions may obtain microfilm copies of any of the articles available in the WHO Library on application to the Library and Reference Section, World Health Organization, Palais des Nations, Geneva, Switzerland, quoting the reference number. Photocopies, size 18 x 24 cm, may also be obtained on payment of 1/6. \$0.25, or Sw. fr. 1.—per page of photocopy. This material is supplied on the understanding that no commercial use will be made of it.

11. BERGHE, L. van den
L'immunité amarile de sérums prélevés chez des ictériques en Uélé (Congo belge). *Ann. Soc. belge Méd. trop.* 1935, **15**, 561-566
12. BERGHE, L. van den
L'immunité amarile de sérums prélevés chez des ictériques en Ubangi (Congo belge). *Ann. Soc. belge Méd. trop.* 1937, **17**, 577-579
13. BERGHE, L. van den
Modifications techniques du test intrapéritonéal de protection amarile chez la souris. *Ann. Soc. belge Méd. trop.* 1939, **19**, 81-86
14. BEVIER, G.
Somé international aspects of yellow fever control. *Brit. Guiana med. Ann.* 1943, **27**, 13-31
15. BIRAUD, Y.
Problèmes actuels posés par l'épidémiologie de la fièvre jaune. Present-day problems of yellow-fever epidemiology. *Rapp. Epidém. S.d.N., Epidem. Rep. L.o.N.* 1935, **14**, 103-173
16. BOIRON, H.
Note sur l'immunité anti-amarile chez les habitants de Dakar. *Bull. méd. Afr. occid. franç.* 1949, **6**, 35-37
17. BONNEL, P. H. & DEUTSCHMAN, Z.
La fièvre jaune en Afrique au cours des années récentes. *Bull. Org. mond. Santé, Bull. Wld Hlth Org.* 1954, **11**, 325-389
18. BOYÉ, L.
Les recherches concernant le test de protection contre la fièvre jaune en Afrique Equatoriale Française et au Cameroun. *Bull. Off. int. Hyg. publ.* 1934, **26**, 1061-1066
19. BOYÉ, L.
La « fièvre rouge » congolaise et le test de protection amaril en Afrique Equatoriale Française. *Bull. Off. int. Hyg. publ.* 1935, **27**, 1319-1321
20. BRICK, I. B.
Residuals of yellow fever vaccine after ten years. A medical and legal problem. *Arch. intern. Med.* 1953, **92**, 221-227
21. BUGHER, J. C.
Demonstration of yellow fever antibodies in animal sera by intracerebral protection test in mice. *Amer. J. trop. Med.* 1940, **20**, 809-841
22. BUGHER, J. C.
Effect of prolonged storage of sera on yellow fever protection tests. *Amer. J. trop. Med.* 1945, **25**, 333-338
23. CAMPENHOUT, J. van
Modifications à la technique du test intrapéritonéal de protection anti-amarile de la souris. *Bull. Off. int. Hyg. publ.* 1939, **31**, 1063-1064
24. CASALS, J. & BROWN, L. V.
Hemagglutination with certain arthropod-borne viruses. *Proc. Soc. exp. Biol. (N.Y.)*, 1953, **83**, 170-173
25. COURTOIS, G.
Durée de l'immunité après vaccination anti-amarile. *Ann. Soc. belge Méd. trop.* 1954, **34**, 9-12
26. DAVIS, N. C.
Studies on South American yellow fever; immunity of recovered monkeys to African virus. *J. exp. Med.* 1929, **49**, 985-991
27. DAVIS, N. C.
The transmission of yellow fever. On the possibility of immunity in *stegomyia* mosquitoes. *Amer. J. trop. Med.* 1931, **11**, 31-42
28. DAVIS, N. C.
On use of immune serum at various intervals after inoculation of yellow fever virus into rhesus monkeys. *J. Immunol.* 1934, **26**, 361-390
29. DICK, G. W. A.
Neutralization of French neurotropic yellow fever virus by sera of Bwamba children. *Ann. trop. Med. Parasit.* 1950, **44**, 319-328

30. DICK, G. W. A.
Epidemiological notes on some viruses isolated in Uganda. *Trans. roy. Soc. trop. Med. Hyg.* 1953, **47**, 13-43
31. DICK, G. W. A. & SMITHBURN, K. C.
Immunity to yellow fever six years after vaccination. *Amer. J. trop. Med.* 1949, **29**, 57-61
32. DINGER, J. E.
Immunitätsbetrekkingen tussen dengue en gele koorts. *Ned. T. Geneesk.* 1954, **98**, 2206-2211
33. DINGER, J. E.
Immunity relations between dengue and yellow fever. *Docum. Med. geogr. trop. (Amst.)*, 1955, **7**, 53-58
34. ELLIOTT, M.
Yellow fever in the recently inoculated. *Trans. roy. Soc. trop. Med. Hyg.* 1944, **38**, 231-234
35. FAVAREL, R.
Immunisation du cobaye contre le virus de la fièvre jaune par scarifications cutanées. *Bull. Soc. Path. exot.* 1945, **38**, 77-86
36. FINDLAY, G. M. et al.
Yellow fever immune bodies in the blood of African animals. Preliminary observations. *Trans. roy. Soc. trop. Med. Hyg.* 1936, **29**, 419-424
37. FINDLAY, G. M., KIRK, R. & MACCALLUM, F. O.
Yellow fever and the Anglo-Egyptian Sudan; distribution of immune bodies to yellow fever. *Ann. trop. Med. Parasit.* 1941, **35**, 121-139
38. FOX, J. P.
Immunity to yellow fever encephalitis of monkeys and mice immunized by neural and extraneural routes. *J. exp. Med.* 1943, **77**, 487-506
39. FOX, J. P.
Non-fatal infection of mice following intracerebral inoculation of yellow fever virus. *J. exp. Med.* 1943, **77**, 507-520
40. FREDERIKSEN, H.
Historical evidence for interference between dengue and yellow fever. *Amer. J. trop. Med. Hyg.* 1955, **4**, 483-491
41. GILLET, J. D. & ROSS, R. W.
The laboratory transmission of yellow fever by the mosquito *Aedes (stegomyia) strelitziae* Muspratt. *Ann. trop. Med. Parasit.* 1953, **47**, 367-370
42. HADDOW, A. J.
Review of results of yellow fever protection-tests on sera of primates from Kenya. *Ann. trop. Med. Parasit.* 1952, **46**, 135-143
43. HERNÁNDEZ MEJIA
Le test de protection et l'épidémiologie de la fièvre jaune au Mexique. *Bull. Off. int. Hyg. publ.* 1936, **28**, 1298-1308
44. HINDLE, E.
The duration of yellow fever immunity. *Lancet*, 1930, **1**, 451
45. HÖRING, F. O.
Gelbfieberbekämpfung in Brasilien. *Arch. Schiffs- u. Tropenhyg.* 1939, **43**, 352-368
46. HOSKINS, M.
Protective properties against yellow fever virus in sera of offspring of immune rhesus monkeys. *J. Immunol.* 1934, **26**, 391-394
47. HOSKINS, M.
Treatment of experimental yellow fever encephalitis with specific immune serum. *Amer. J. trop. Med.* 1935, **15**, 545-549
48. HOSKINS, M.
Protective action of neurotropic against viscerotropic yellow fever virus in *Macacus rhesus*. *Amer. J. trop. Med.* 1935, **15**, 675-680
49. HUDSON, N. P.
Protective and complement-binding bodies in serum of human yellow fever convalescents. *Proc. Soc. exp. Biol. (N.Y.)*, 1931, **28**, 937-939
50. HUDSON, N. P.
Protective and complement-binding substances in serums of persons convalescent from yellow fever. *Trans. Chicago path. Soc.* 1931, **13**, 418

51. HUDSON, N. P., PHILIP, C. B. & DAVIS, G. E.
Protection tests with serum of persons recovered from yellow fever in the Western Hemisphere and West Africa. Additional report. *Amer. J. trop. Med.* 1929, **9**, 223-232
52. HUGHES, T. P.
Precipitin reaction in yellow fever. *J. Immunol.* 1933, **25**, 275-294
53. HUGHES, T. P., JACOBS, H. R. & BURKE, A. W.
Survey of yellow fever immunity in Uganda. *Trans. roy. Soc. trop. Med. Hyg.* 1941, **35**, 131-142
54. HUGHES, T. P. & PERLOWAGORA, A.
The application of immunological tests of sera from captured wild animals to the study of yellow fever epidemiology. *Amer. J. trop. Med.* 1950, **30**, 835-853
55. HUGHES, T. P. & PERLOWAGORA, A.
Antigenic relationships of certain viruses capable of producing encephalitis in mice as shown by complement fixation tests. *J. Immunol.* 1950, **65**, 155-161
56. HUGHES, T. P. & SAWYER, W. A.
Significance of immunity tests in epidemiology as illustrated in yellow fever. *J. Amer. med. Ass.* 1932, **99**, 978-982
57. JADIN, J.
Culture du virus de la fièvre jaune sur la membrane chorioallantoïdienne de l'embryon de poulet. *Ann. Soc. belge Méd. trop.* 1937, **17**, 27-32
58. JONCHÈRE, H. & BOIRON, H.
Sur la durée de l'immunité après vaccination contre la fièvre jaune. *Bull. méd. Afr. occid. franç.* 1946, **3**, 205
59. KIRK, R.
Recent advances in tropical medicine. No. V. — Yellow fever. *W. Afr. med. J.* 1953, **2**, 169-180
60. KOPROWSKI, H.
Occurrence of non-specific virus-neutralizing properties in sera of some neotropic mammals. *J. Immunol.* 1946, **54**, 387-394
61. KOTTER, G. F. & BERGHE, L. van den
Filter test of neurotropic yellow fever virus using Seitz filters. *Ann. Soc. belge Méd. trop.* 1935, **15**, 213-220
62. KUMM, H. W. & LAEMMERT, H. W. Jr.
Geographical distribution of immunity to yellow fever among primates of Brazil. *Amer. J. trop. Med.* 1950, **30**, 733-748
63. LAEMMERT, H. W. Jr., HUGHES, T. P. & CAUSEY, O. R.
Invasion of small forests by yellow fever virus as indicated by immunity in cebus monkeys. *Amer. J. trop. Med.* 1949, **29**, 555-565
64. LAIGRET, J.
Le contrôle des vaccinations antiamariles par l'épreuve de protection sur souris. *Arch. Inst. Pasteur Tunis*, 1934, **23**, 43-47
65. LAIGRET, J. & BONNEAU, E.
Longue persistance de l'immunité conférée par la vaccination de la fièvre jaune. *C. R. Acad. Sci. (Paris)*, 1936, **202**, 172-175
66. LENNETTE, E. H. & PERLOWAGORA, A.
The complement fixation test in the diagnosis of yellow fever; use of infectious mouse brain as antigen. *Amer. J. trop. Med.* 1943, **23**, 481-504
67. LENNETTE, E. H. & PERLOWAGORA, A.
The complement fixation test in the diagnosis of yellow fever; comparative value of the serologic and histopathologic methods of diagnosis. *Amer. J. trop. Med.* 1945, **25**, 11-18
68. LÉPINE, P. & SOHIER, R.
Techniques de laboratoire appliquées au diagnostic des maladies à virus. Paris, Masson, 1954, 479 p.
69. LIÉGEOIS, P., ROUSSEAU, E. & COURTOIS, C.
Complément d'enquête sur la distribution de l'immunité antiamarile naturelle chez les indigènes du Congo belge. *Ann. Soc. belge Méd. trop.* 1948, **28**, 247-267

70. LLOYD, W. & MAHAFFY, A. F.
Serum antibody titer of *Macacus rhesus* following repeated inoculations of yellow fever virus. *J. Immunol.* 1934, **26**, 313-320
71. LLOYD, W. & MAHAFFY, A. F.
Use of guinea pigs in tests of immunity against yellow fever with small quantities of serum. *Amer. J. trop. Med.* 1935, **15**, 51-58.
72. LLOYD, W. & PENNA, H. A.
The preservation of yellow fever immune sera. *Amer. J. trop. Med.* 1933, **13**, 291-295
73. MacCALLUM, F. O. & FINDLAY, G. M.
Yellow fever immune bodies and animal sera. *Trans. roy. Soc. trop. Med. Hyg.* 1937, **31**, 199-206
74. MACNAMARA, F. N.
Uganda S and yellow fever viruses. A slight relationship shown by experiments in rhesus monkeys and white mice. *Brit. J. exp. Path.* 1953, **34**, 392-399
75. MAHAFFY, A. F., LLOYD, W. & PENNA, H. A.
Two years' experience with intraperitoneal protection test in mice in epidemiological studies of yellow fever. *Amer. J. Hyg.* 1933, **18**, 618-628
76. MAHAFFY, A. F., SMITHBURN, K. C. & HUGHES, T. P.
Distribution of immunity to yellow fever in Central and East Africa. *Trans. roy. Soc. trop. Med. Hyg.* 1946, **40**, 57-82
77. MATAS, R.
Permanent presence of specific immunizing antibodies in blood of yellow fever subjects; experimentally demonstrated by "mouse protection test" 77 years after clinically recognized attack of disease. *New Orleans med. surg. J.* 1944, **97**, 9-13
78. MONTEIRO, J. L. & TRAVASSOS, J.
Diagnostico serologico da febre amarella. Sobre a reacção de fixação do complemento na febre amarella, seus resultados e valor pratico. *Brasil-méd.* 1930, **44**, 313-318
79. PELTIER, M. et al.
La transmission par piqûre de *Stegomyia*, du virus amaril neurotrope présent dans le sang des personnes récemment vaccinées, est-elle possible dans les régions où ce moustique existe en abondance? *Rev. Immunol. (Paris)*, 1939, **5**, 172-195
80. PENNA, H. A. & BITTENCOURT, A.
Persistence of yellow fever virus in brains of monkeys immunized by cerebral inoculation. *Science*, 1943, **97**, 448-449
81. PERLOWAGORA, A. & HUGHES, T. P.
Complement fixation test in yellow fever epidemiology; use of globulin antigen in immunity surveys. *J. Immunol.* 1947, **55**, 103-119
82. PERLOWAGORA, A. & HUGHES, T. P.
Complement fixation test in yellow fever epidemiology; development and loss of complement-fixing antibodies in marmosets (*Callithrix penicillata*, *C. jacchus* and *Leontocebus chrysomelas*). *J. Immunol.* 1948, **60**, 67-75
83. PETTIT, A. & STEFANOPOULO, G. J.
Sérum antiamaril. In: *Festschrift Bernhard Nocht zum 80. Geburtstag von seinen Freunden und Schülern*. Hamburg, Friederichsen de Gruyter, 1937, p. 460-463
84. PORTERFIELD, J. S.
The haemagglutination-inhibition test in the diagnosis of yellow fever in man. *Trans. roy. Soc. trop. Med. Hyg.* 1954, **48**, 261-266
85. RAND, C. G.
Immunity and vaccination in yellow fever. *McGill med. J.* 1941, **11**, 11-19
86. RODANICHE, E. C. de
Survey of live forest animals for protective antibodies against yellow fever in Panama, R.P. *Amer. J. trop. Med. Hyg.* 1952, **1**, 789-795
87. RUSSELL, F. F.
Study of yellow fever by protection test in mice. *Amer. J. med. Sci.* 1932, **183**, 87-90

88. SABIN, A. B.
Genetic, hormonal and age factors in natural resistance to certain viruses. *Ann. N.Y. Acad. Sci.* 1952, **54**, 936-944

INDEX

The figures in bold type indicate the page numbers of articles

- Ampoules, 17D vaccine, 77-81
Dakar vaccine, 38-39, 40
- Antibody response to 17D vaccine, 13,
15, 97, 123
animals, 105-107
man, 106-108
- Argentina, number of vaccinations, 1937-
49, 131
- Belgian Congo, post-vaccination studies,
110
- BONNEL, P. H., **193-208**
- Bolivia, number of vaccinations, 1937-49,
131
- Brazil, vaccinations, 7, **91-95**, 106, 107,
123-139
National Yellow Fever Service, 91,
123-126
number of yellow fever cases recorded,
1950-54, 133
See also 17D vaccine; Mass vaccination
- British Cameroons, post-vaccination study,
155
- Certificate of vaccination, 194, 200-201,
204
- Chick-embryo in preparation of 17D vac-
cine, freezing, 75-77
grinding, 74
harvesting, 73-74, 206
incubation, 69, 72
inoculation, 69-72
- Combined vaccination, *see* Smallpox vac-
cination
- Complement-fixation test, 22
- Concentration of 17D virus, 68, 86-88
- Contra-indications to vaccination with
Dakar vaccine, 48
- Control of vaccine, 202-203
- COURTOIS, G., **105-111**
- 17D vaccine, administration in field, 94-95,
128-129, 207
development, 14-15, 67-68, 147-149
original production method, 67
present production method, 67-89
See also Chick-embryo; Mass vaccina-
tion; Reactions; Scarification
- Dakar vaccine, development, 31-32, 143-
146
inoculation method, 32, 46
precautionary measures, 48-49
preparation, 32-40
preparation of suspension, 45-46
See also Mass vaccination; Smallpox
vaccination; Mouse-brain; Reac-
tions
- Deep-freeze apparatus, 76-77
- Desiccation, 17D vaccine, 68, 82-85, 88
See also Mouse-brain
- DE SOUZA MANSO, CAIO, **123-139**
- DICK, G. W. A., **97-103**
- Dose of virus, scarification with 17D
vaccine, 98
scarification with Dakar vaccine, 42-43
subcutaneous inoculation with 17D vac-
cine, 87-88, 127, 128-129
subcutaneous inoculation with 17E vac-
cine, 147
- DURIEUX, C., **31-43**, **45-49**, **115-121**
